

I understand that the FCC has introduced a new service for LPFM stations which would take priority over current FM translator service. This would interfere with national or regional services such as KLOVE. I have been listening to them for years and telling everyone about the positive influence they have on our youth & are safe for the entire family's listening- NO off colored jokes. To expand the LPFM would be a disservice to citizens with high morals in our county. Please DO NOT expand the services for LPFM.THANKS
